- 

Location
Dinuba, California
Certification level
Silver
Percent of Overall Diversion Achieved
92.4%
Facility Size
1,027,669 square feet
Type of Operation
Regional Distribution Center
Project Owner
Best Buy
Project Overview
The Dinuba facility achieved this milestone under the leadership of Leticia Cervantes, a specialist in Workforce Management Systems, and Andrew Vela, Dinuba distribution manager, who rallied their team behind the importance of recycling in the workplace. The Dinuba team doubled the amount of recycling bins located in their breakrooms throughout the building, providing a simple way to make environmentally friendly decisions and diverting 92% of waste. This certification aligns with our company’s values and is part of our broader efforts to protect the planet and create a more sustainable future. To make a positive, lasting impact on the planet, we are working towards building a more sustainable supply chain including looking for ways to reduce our waste across the company.
