FGF Brands
Project Overview
FGF Brands is not just a bakery, we are a technology company that bakes. We are on a mission to become the world’s greatest baker! Our passion to become the world’s greatest baker doesn’t stop at the quality of our food. It ripples through to our processes, our people, and our impact on the world around us. We are acutely aware of our responsibility to sustainable practices across our entire organization. That’s why we’ve developed three ambitious goals around waste, water, and carbon, as well as recently joining the Canada Plastics Pact to reduce the impact of our product packaging. The projects and programs associated with our sustainability targets are all part of our transformation to make our company one of the cleanest and most forward-thinking bakeries in the world. Across all our facilities, our environmental policy and ambitious environmental goals have been taken up by the same passionate people who drive our company forward each day. Our 777 Creditstone Rd, Vaughan manufacturing location is highly spirited and highly motivated to be the best at doing just that. Therefore, it was no surprise that 777 Creditstone received a Silver level certification for zero waste, with a diversion rate of 92.4%! Some key practices and programs implemented at our 777 Creditstone facility include: - Bulk ingredient purchases - Utilizing reusable pallets - Team Member engagement and training - Weekly waste inspections and yearly waste audits - Directing bakery waste to animal feed production “A goal as monumental as achieving zero waste status requires the ongoing support of each and every Team Member. That’s why we have embedded waste reduction and diversion into the culture at FGF. We are proud of the progress we have made and our TRUE Certification!” – Darcy Curran, Environmental Sustainability Manager, FGF Brands Learn more about FGF Brands' sustainability initiatives.
